Welcome from the President

Today marks the 158th Commencement exercises held at Tufts University. We thank and welcome all of you from around the world who are here for this joyous occasion—the culmination of our students' intellectual and personal journeys, and the highlight of the academic year.

We will graduate more than 2,500 students. Their diverse backgrounds and perspectives have enriched the life of our university community even as they pursued challenging courses of study on our Boston, Grafton, and Medford/Somerville campuses. Many have also studied abroad, conducted research in field sites near and far, and provided expert clinical care. They have also given generously of their talents to community, neighborhood, and public service organizations, putting into action our commitment to active citizenship. We look forward to hearing of their continuing achievements after graduation and hope they will stay connected with Tufts as members of our global alumni community, more than 100,000 strong. They will continue to be ambassadors for Tufts and its values.

Today's Commencement address will be delivered by Dr. Anne-Marie Slaughter. As a distinguished scholar, academic leader, and advocate for innovation in public policy and international affairs, Dr. Slaughter represents the multi-faceted excellence and civic engagement to which Tufts is committed. She is also one of the most thoughtful and widely quoted commentators on the issues of personal and professional equality for women in contemporary America. I am sure her address will inspire our graduates and give all of us opportunity to reflect on how we can use our talents for the common good.

The Board of Trustees has voted to award honorary doctorates to Dr. Slaughter and four other distinguished honorees in recognition of their achievements in their chosen fields. Each of them can stand as an exemplar for our graduates. A total of 17 members of the faculty have been named to emeritus status, and we will recognize their contributions to the life of the university over a truly remarkable total of more than 575 years of service to Tufts.

Our first Commencement took place on July 8, 1857. On that occasion, three students received their degrees from Tufts College, and the addresses were given in Latin. While much has changed since then, the university's commitment to education and opportunity has endured. The support of faculty, staff, families, and friends has been a vital part of our students' education. I know all of you join me in congratulating our graduates and wishing them all the best for the future.

Sincerely,

A handwritten signature in black ink that reads "Tony Monaco". The signature is written in a cursive, slightly slanted style.

Dear Alma Mater

Leo R. Lewis A1887

*We con beside thy knee,
Dear Alma Mater,
Earth's book of mystery,
Dear Alma Mater,
We track the storied past,
Dear Alma Mater,
Over plains of learning vast,
Dear Alma Mater,
Speed on thy sunlit way,
Dear Alma Mater,
We vow new faith today,
Dear Alma Mater!
May glory light thy name,
Dear Alma Mater,
All thy children sing thy fame,
Dear Alma Mater, for aye!*

Tuftonia's Day

Elliot Wright Hayes A16

*Steady and true, rush along, Brown and Blue.
Raise a mighty score today.
Fearless tear down the field and never yield!
Brown and Blue, Brown and Blue for aye!
Hammer them hard, boys, and break through their guard.
That is old Tuftonia's way.
and our glorious banner once again will wave o'er
Tuftonia's Day.
T-u-f-t-s, T-u-f-t-s, Hurrah! Hurrah! for dear old Brown
and Blue!*

Refrain:

*Up on the Hill tonight all will be gay.
Victorious in the fight, we'll raise the standard of dear old
Tufts to glory!
Pile up a mighty score.
It's bound to soar.
Now one goal more!
Nothing can stop us; it's Tuftonia's Day.*

Academic Regalia

Traditional academic regalia has been worn by the Tufts faculty since the Commencement of 1906. The gown for the Bachelor's degree has pointed sleeves and is designed to be worn closed. The Master's gown has elbow-length, pointed sleeves; the Doctor's gown has bell-shaped sleeves; both may be worn open or closed. The Doctor's gown is faced, and the sleeves are trimmed with velvet. By its color and arrangement, the hood worn with the gown indicates the wearer's highest advanced degree, the field in which it was awarded, and the school from which it came. The lining of the hood carries the school's colors, brown and blue in the case of Tufts. The velvet edging on the hood, wider for the Doctor's degree than for the Master's degree, signifies by its color the field in which the degree was designated. Master of Science and Doctor of Science

hoods are trimmed in yellow; Engineering in orange; Medicine in green; Dental Medicine in lilac; Doctor of Philosophy in blue; and Veterinary Medicine in grey. The mortarboard or Oxford-type cap is the one usually worn, but of late, the soft cap, which resembles an oversized beret, has come into favor because of its comfort. Tassels, other than the universally accepted black, may indicate by the various colors the field of learning in which the degree is earned, while the gold tassel generally signifies a doctoral degree. Many foreign universities show great diversity, following traditions that extend back for centuries.

Recipients of Honorary Degrees

When he was training students and community members in Nashville in the ways of nonviolent protest in the late 1950s, **JAMES M. LAWSON JR.** told them this: “It has much more meaning to the attacker if, as he strikes you in the cheek, you’re looking him in the eye.” Many of his pupils became well-known civil rights activists, including John Lewis, Diane Nash, and Bernard Lafayette.

Lawson had come to Tennessee at the urging of Martin Luther King Jr., to teach the philosophy of nonviolence that both men believed was crucial to the success of the growing desegregation movement. He also enrolled as a divinity student at Vanderbilt University.

From February through May of 1960, Lawson and several hundred local activists staged lunch counter sit-ins at segregated restaurants and stores across Nashville. Protesters, mostly students like Lawson, were beaten and verbally abused. And although they did not retaliate, more than 150 of them were arrested.

The nonviolent Nashville protests became a model for ensuing civil rights demonstrations and marches that King and Lawson organized with others across the South. King called him “the leading nonviolence theorist in the world.”

Lawson was expelled from Vanderbilt for his involvement with the sit-ins, but this was not the first time he had experienced the consequences of acting on his beliefs. In 1951, he resisted the draft as a conscientious objector and served fourteen months in prison. After his release, he did missionary work for the Methodist Church in India, where he studied Gandhi’s use of nonviolence to achieve social and political change.

In the 1968 speech “I’ve Been to the Mountaintop,” which King delivered in Memphis the day before he was assassinated, he spoke of Lawson as one of the “noble men” who had influenced the black freedom struggle: “He’s been going to jail for struggling; he’s been kicked out of Vanderbilt University for this struggling, but he’s still going on, fighting for the rights of his people.”

Lawson led workshops on nonviolent protest for the Fellowship of Reconciliation from 1957 to 1969, the Student Nonviolent Coordinating Committee from 1960 to 1964, and the Southern Christian Leadership Conference (SCLC) from 1960 to 1967. He participated in the third wave of the 1961 Freedom Rides, the Birmingham Campaign of 1963, and the Mississippi Freedom Summer of 1964.

His work continued after King’s death. He became a board member of SCLC in 1973, and served as president of the Los Angeles chapter from 1979 to 1993.

Lawson, who earned an A.B. from Baldwin-Wallace College and a Bachelor of Sacred Theology degree from Boston University, served as pastor of Holman United Methodist Church in Los Angeles from 1974 until his retirement in 1999.

In 1996, he returned to Vanderbilt to receive the Vanderbilt Divinity School’s first Distinguished Alumnus Award—and an apology for his expulsion in 1960. From 2006 to 2009 he taught there as a distinguished visiting professor, and in 2007, the James M. Lawson Jr. Chair at Vanderbilt was established in his honor. Lawson has also taught at Harvard University, Claremont School of Theology, and Chapman University, and is currently teaching at University of California at Los Angeles (UCLA) as well as California State University, Northridge.

Today, he continues to believe that the nonviolent approach is the only one that can truly transform society. Talking about the Nashville sit-ins more than fifty years later, Lawson recently told a class at Vanderbilt:

“We saw a wrong, and with our bodies we went into the situation to correct it. Could that have been done with guns or with billy sticks? No. The issue is not fear; the issue is if you let fear govern your values.”

Tufts will award Lawson an honorary Doctor of Public Service degree.

After graduating from Tufts, **JILL LEPORE** J87 had a temp job working as a secretary at Harvard Business School. Her future was uncertain. Restless, she sat in on a few classes across the river on the main campus, wrote fiction like mad, and devoured books she pulled out of Widener Library to satisfy her inner appetites, all of this according to no larger, more focused scheme. “I was just some secretary, auditing a course,” she later told an interviewer. “I very much doubt I ever spoke in class.”

It wasn’t until the day that representatives from Manpower arrived at her desk at the business school with a bouquet of flowers, honoring her with a best secretary award, that Lepore knew something had to change. Sure enough, it did. Today, she’s a professor in the Harvard history department, widely acclaimed on the national stage for her stylish, original, and penetrating work.

Lepore grew up outside Worcester, Massachusetts, the daughter of a junior high school principal and an art teacher mom who kept an easel in the trunk of her car for impromptu roadside painting. She was a jock in high school and attended Tufts University on a ROTC scholarship, but neither passion lasted. She graduated early and set about trying to find her way in the world. In the end, that meant locating and telling a few of the stories that had fallen through the cracks of history and been forgotten—narratives of the silent and the lost.

She wanted to read other people’s letters, in effect, and learn what they had to say. At Yale, where she earned her Ph.D. in American Studies in 1995 (after completing an M.A. in American culture at the University of Michigan),

Recipients of Honorary Degrees

Lepore ran into a prevailing emphasis on historical theory and analysis, where character was viewed as incidental. “Unfortunately, all I ever wanted to do was figure people out,” she said recently. That meant acting “like a detective, like a Chandler gumshoe.”

Lepore’s first book, *The Name of War: King Philip’s War and the Origins of American Identity*, published in 1998, was typical of her approach. It explored the virtually unknown war that Algonquian chief King Philip launched against the English in 1675 to drive the settlers from New England and reclaim his land. After reviewing the complex affiliations among the English back home in Britain, the English settlers in the New World, and the Native Americans, Lepore challenged the long-held notion that American identity arose chiefly in the tension between two English contingents, one old and one emerging. That book won the Bancroft Prize, among other honors.

A more recent work, *Book of Ages: The Life and Opinions of Jane Franklin*, pursued an even more shadowy topic, the biography of Benjamin Franklin’s sister, who, while dear to her famous brother, lived and died in obscurity. By sorting through the trove of intimate, chatty letters the two Franklins had exchanged, Lepore was able to bring her subject vividly to life. The book was a finalist for the 2013 National Book Award for Nonfiction. “History’s written from what can be found; what isn’t saved is lost, sunken and rotted, eaten by earth,” she wrote last summer in the *New Yorker* (where she is a staff writer), recounting how Jane’s story had haunted her for years.

Lepore is the David Woods Kemper ’41 Professor of American History at Harvard University and chair of that school’s History and Literature Program. Her other books include *New York Burning: Liberty, Slavery and Conspiracy in Eighteenth-Century Manhattan* (2005), *The Whites of Their Eyes: The Tea Party’s Revolution and the Battle for American History* (2010), *The Mansion of Happiness: A History of Life and Death* (2012), and *The Story of America: Essays on Origins* (2012). Her next book, *The Secret History of Wonder Woman*, will be published this fall.

Lepore will receive an honorary Doctor of Humane Letters degree.

The son of Japanese literature teachers, **HARUKI MURAKAMI** had no aspirations to write until he was twenty-nine. That’s when, the story goes, he was inspired to pen his first novel during a baseball game between the Tokyo Yakult Swallows and the Hiroshima Toyo Carp. His debut novel, *Hear the Wind Sing*, published in 1979, was the first book in the Trilogy of the Rat series. Though it was nominated for the prestigious Akutagawa Prize, it did not meet with critical acclaim from the Japanese literary establishment, which

found Murakami’s style too non-traditional.

Murakami has said he never felt comfortable in Japanese society, with its emphasis on communal harmony, hierarchy, and conformity. That alienation is one theme that runs through his works. Raised on a steady diet of Western music and literature, he has been especially influenced by Raymond Carver, Kurt Vonnegut, Kafka, and Dostoyevsky. His novels are rife with mentions of Bob Dylan, European delicacies, *The Great Gatsby*, and Western pop cultural references “so obscure they even flew over the head of some Americans,” a reviewer wrote in *The New York Times* in 1997. “You’d never know he was Japanese at all.”

Murakami eventually found commercial success in Japan in 1987, with the publication of his fifth novel, *Norwegian Wood*. The book, in which a middle-aged man reflects on his college years in Tokyo during the late 1960s, was especially popular among young adults. Murakami has said he thinks of his career as “before and after *Norwegian Wood*.”

He moved to the United States in 1986, and was a writer-in-residence at Tufts University from 1993 to 1995. During his time at the university, he finished writing the novel *The Wind-Up Bird Chronicle*. Though the Kafkaesque tale contains the magical realism and alienated protagonists that have become hallmarks of Murakami’s fiction, it also takes on more political themes, examining Japan’s role as an aggressor in the Second World War. The book earned Murakami entrée into the Japanese literary establishment—something he had never sought—and he was awarded one of the nation’s prestigious literary prizes, the Yomiuri Literary Award.

After leaving Tufts, Murakami returned to Japan, where he researched and wrote his first nonfiction book, *Underground: The Tokyo Gas Attack and the Japanese Psyche*, about the sarin gas attacks on the Tokyo subway by the religious terror group Aum Shinrikyo in 1995. He also wrote a collection of short stories about the 1995 earthquake that struck the city of Kobe, killing more than six thousand people.

While his work has found international acclaim and gained cult status among younger readers worldwide, his translations of American authors into Japanese are important in their own right. He has translated the complete works of Raymond Carver as well as writings of F. Scott Fitzgerald, Truman Capote, John Irving, and Ursula K. Le Guin.

His memoir, *What I Talk About When I Talk About Running*, which was published in English in 2008, brought Murakami to a whole new audience when the book reached number five on Amazon.com’s Running & Jogging bestseller list. As with writing, Murakami came late to running, getting serious about the sport at age thirty-three. The memoir is an account of his training, much of which takes

Recipients of Honorary Degrees

place along the banks of the Charles River in Boston, for the 2005 New York City marathon. An atypical sports memoir, *What I Talk About When I Talk About Running* might reveal more about Murakami the writer than Murakami the athlete:

“In the novelist’s profession, there’s no such thing as winning or losing. What’s crucial is whether your writing attains the standards you’ve set for yourself. Writing novels and running full marathons are very much alike; basically a writer has a quiet, inner motivation and doesn’t seek validation in the outwardly visible. For me, running is both exercise and a metaphor. Bit by bit, I raise the bar and by clearing each level, I elevate myself.”

Murakami will receive an honorary Doctor of Letters degree from Tufts University.

ANNE-MARIE SLAUGHTER has had a long and distinguished career in policy and public affairs. She is the president and CEO of the New American Foundation, a public policy institute, and the Bert G. Kerstetter ’66 University Professor Emerita of Politics and International Affairs at Princeton University. She was the first woman to serve as dean of Princeton’s Woodrow Wilson School of Public and International Affairs and earlier was the J. Sinclair Armstrong Professor of International, Foreign, and Comparative Law at Harvard Law School.

From 2009 to 2011 Slaughter served as director of policy planning for the United States Department of State; she was the first woman to hold that position. Slaughter received the Secretary’s Distinguished Service Award for exceptional leadership and professional competence, the highest honor given by the State Department, for her work leading the Quadrennial Diplomacy and Development Review. She also received meritorious service awards from the U.S. Agency for International Development (USAID) and the Supreme Allied Commander for Europe.

Slaughter’s scholarship has focused on integrating the study of international relations and international law, and she has written extensively on European Union politics and American foreign policy. She has written or edited six books, including *A New World Order* (2004) and *The Idea That Is America: Keeping Faith with Our Values in a Dangerous World* (2007), and more than one hundred scholarly articles. She writes a monthly column for the online commentary site *Project Syndicate*, provides frequent commentary for media outlets, and comments on foreign policy for more than 90,000 followers on Twitter (@SlaughterAM). *Foreign Policy* magazine has named her to its annual list of the Top 100 Global Thinkers multiple times.

She received a B.A. from Princeton University, an M.Phil. and a D.Phil. in international relations from Oxford

University, where she was a Daniel M. Sachs Scholar, and a J.D. from Harvard.

Slaughter confronted the challenges she faced as a parent holding a high-level position in the State Department in a widely read article she wrote in *The Atlantic* magazine in 2012, and in doing so singlehandedly revived the national debate about work-family balance. The conversation is not over.

In the article “Why Women Still Can’t Have it All,” Slaughter described rising at 4:20 every Monday morning to catch a train to Washington, and returning home to Princeton, New Jersey, on Fridays to be with her family. One night, at a gathering of foreign dignitaries in New York, she mingled with heads of state, but couldn’t stop thinking about her fourteen-year-old son, who had just started eighth grade and was skipping homework, disrupting classes, and failing math. She wrote about how difficult it was to be away from her son when he clearly needed her. When her two-year public service leave from Princeton was up, “I hurried home as fast as I could,” Slaughter said.

Women won’t be able to have it all, she says, until America’s economy and society are restructured. Slaughter says employers need to offer flexible schedules and allow people to work from home. Her ideas go beyond logistics: she says society must value choices to put family ahead of work as much as it values those who put work ahead of family. Societies that discover how to use the education and talent of half their populations, while allowing women and their partners to invest in their families, will have a competitive edge in the global knowledge and innovation economy, she says.

Slaughter will receive an honorary Doctor of Laws degree from Tufts.

In 1982, **JAMES A. STERN** E72, A07P, became the youngest person ever elected to the Tufts University Board of Trustees; he was thirty-two. Already successful on Wall Street, he was accustomed to working alongside senior decision makers. Still, he says, “it took a while to learn everything on the board. I was pretty careful to pick my spots to get involved.”

He served on the board for the next thirty-one years, the last ten as chair, until stepping down in November 2013. He helped guide four Tufts presidents, led three major fundraising initiatives, and brought a new level of transparency to the Board of Trustees.

During Stern’s tenure, the university’s endowment grew from \$45.5 million in 1982 to \$1.4 billion in 2012. At the same time, Tufts became highly selective. In 1982, fewer than 10,000 prospective undergraduate students applied to the schools of Arts and Sciences and Engineering, and 35.6 percent of them were offered admission. By contrast, the

Recipients of Honorary Degrees

class of 2017, the last admitted during his leadership of the board, was selected from the largest pool of candidates ever to seek admission—18,420 applicants—with the lowest-ever acceptance rate, 18.8 percent.

One of Stern's priorities on the board was to provide the university with a solid financial foundation to build on its strengths. Stern spearheaded several capital campaigns that raised more than \$2 billion to support Tufts, its students, and its faculty.

Stern and his wife, Jane, took an active role as philanthropists for Tufts as well. In 1998, they endowed the Arthur Stern Jr. Professorship in American History—establishing a pattern that includes three professorships and scholarships that now support more than 30 students each year. “The basis of philanthropy has always been to bet on people and the multiplier effect that people can help other people,” Stern says.

As an undergraduate, Stern majored in civil engineering, although he says he wasn't a natural at the subject and considered switching majors. But once he decided to stick with it, things began to click. “My engineering professors really taught me how to think,” he says.

After Tufts, he headed to Harvard Business School, where he graduated as a Baker Scholar, an honor awarded to the top five percent of the class. He then embarked on a two-decade career with Lehman Brothers, joining the firm in 1974 as an associate in investment banking. In 1982 he was named managing director, with responsibility for Lehman's corporate financing activities. He joined the firm's management committee in 1988, and became co-head of investment banking. He was named head of merchant banking in 1989.

In 1994, Stern founded The Cypress Group, a New York-based private equity firm that manages funds totaling more than \$3.5 billion; he is currently the group's chairman.

Stern serves or has served on the boards of a number of corporations, including Affinia, WESCO International, Lear Corporation, and Cinemark USA. He is also a board member of several charitable and philanthropic organizations, including the Jewish Museum and the Cancer Research Institute.

Sol Gittleman, the former university provost who is now the Alice and Nathan Gantcher University Professor, remembers Stern from when he had him as a student. “His intellect made my classes better,” Gittleman says. “When he returned as a trustee, his insights made the college better. When he became board chair, his mature wisdom made the university better. He has never stopped learning, giving back, or making Tufts a better place.”

Stern will receive an honorary Doctor of Business Administration degree.

Order of Events

Undergraduate and graduate students in the School of Arts and Sciences participate in department ceremonies. The School of Engineering holds one ceremony for all graduating students. Each celebration has a unique order of events that reflects the character of the departments involved.

We invite you to enjoy the ceremonies (see page eight). The recognition of our students is well deserved. We congratulate all of our graduates for their academic achievement and wish them well in the future.

Ceremony Hosts

Carol Baffi-Dugan, *Associate Dean of Undergraduate Education*

John Barker, *Dean of Undergraduate and Graduate Students for the School of Arts and Sciences and the School of Engineering*

Nancy Bauer, *Dean of Academic Affairs for the School of Arts and Sciences*

Joanne Berger-Sweeney, *Dean, School of Arts and Sciences*

Candidates for Graduate Degrees

Doctor of Philosophy

Cheryl Alison

English
B.A., University of Oregon
M.A., Tufts University
Dissertation: *Creatures of Habit*
Advisor: Dr. Joseph Litvak

Jeffrey L. Birk**

Psychology
B.A., Dartmouth College
M.S., Tufts University
Dissertation: *The Contributions of Threat-Biased Attention and Attentional Control to Anxiety*
Advisor: Dr. Heather Urry

Patrick J. Bisson*

Chemistry
B.S., University of Massachusetts Amherst
Dissertation: *Hydrogen Bonding in the Prism Face of Ice I_h*
A Study via Sum Frequency Generation Vibrational Spectroscopy
Advisor: Dr. Mary Jane Shultz

Clement L. Chau

Child Development
B.A., Washington University in St. Louis
M.A., Tufts University
Dissertation: *Positive Technological Development for Young Children in the Context of Children's Mobile Apps*
Advisor: Dr. Marina Bers

Brook T. Chernet

Biology
B.S., Saint Vincent College
Dissertation: *Bioelectric Detection and Control of Tumor Growth in *Xenopus Laevis**
Advisor: Dr. Michael Levin

Jacob H. Crane

English
B.A., Boston University
M.A., Tufts University
Dissertation: *Hazardous Crossings: The Transatlantic Figure in American Print, 1784–1855*
Advisor: Dr. Radiclan Clytus

Robert J. de Bruijn**

Biology
Diplôme, Mid Sweden University
M.S., University of Groningen, Netherlands
Dissertation: *Behavioral and Physiological Responses to Weather-Related Stressors*
Advisor: Dr. Michael Romero

Faith M. Dukes*

Chemistry
B.S., Spelman College
Dissertation: *Differing Photo-Oxidation Mechanisms: Electron Transfer in Titanium Dioxide vs. Modified Titanium Dioxide*
Advisor: Dr. Mary Jane Shultz

Stephanie Friedhoff

Mathematics
B.S., University of Wuppertal, Germany
Dissertation: *Design and Analysis of Multigrid Methods for Parabolic Problems*
Advisor: Dr. Scott MacLachlan

Sarah E. Gaither

Psychology
B.A., University of California at Berkeley
M.S., Tufts University
Dissertation: *"Mixed" Biracial Experiences from the Target's and Perceiver's Viewpoint*
Advisor: Dr. Samuel Sommers

Caroline N. Gelmi**

English
B.A., Boston College
Dissertation: *Fictions of the Speaker in American Poetry and Poetics, 1866–1915*
Advisor: Dr. Virginia Jackson

Advisor: Dr. Maryanne Wolf

Celeo R. Guifarro Calona

Chemistry
B.S., Suffolk University
Dissertation: *The Guifarro Cycle—An Efficient Method for the Synthesis of Imidoylamidines*
Advisor: Dr. Elena Rybak-Akimova

Patricia A. Gumbley

Chemistry
B.A., College of the Holy Cross
Dissertation: *Photochemical Control of the Solubility and Electrostatic Properties of Polymer Materials*
Advisor: Dr. Samuel Thomas

Mark M. GwinnLandry**

English
B.A., Bates College
M.A., University of New Hampshire
Dissertation: *Epistemology of the Veil*
Advisor: Dr. Modhumita Roy

Graduate School of Arts and Sciences

Candidates for Graduate Degrees

Samuel F. Hamilton**

Physics

B.S., University of Pittsburgh

M.S., Tufts University

Dissertation: Measurement of the Longitudinal Polarization of the Top Quark in Top-Antitop Events Using the ATLAS Detector

Advisor: Dr. Krzysztof Sliwa

Ning Hao**

Mathematics

B.S., Sun Yat-sen University, China

M.S., Tufts University

Dissertation: Moving from Matrix to Tensor-Based Analysis and Algorithms for Applications in Imaging Science and Beyond

Advisor: Dr. Misha Kilmer

Nealia Carlyn Mishelle House

Biology

B.A., Smith College

M.S., Tufts University

Dissertation: Chromatin Modifications Promote DNA Repair Fidelity to Prevent Disease-Associated CAG Repeat Expansions

Advisor: Dr. Catherine Freudenreich

Jenny Lucille Howe

English

B.A., Boston College

M.A., Boston College

Dissertation: Monstrous Femininity and the Female Body in Medieval Chivalric Romance

Advisor: Dr. John Fyler

Yongli Huang**

Chemistry

B.E., Central South University, China

M.S., Central South University, China

M.S., University of Oklahoma

Dissertation: State-resolved Measurements of CH₄ and CHD₃ Dissociation on Ni (111)

Advisor: Dr. Arthur Utz

Lama Ziad Jaber

Education

B.S., American University of Beirut, Lebanon

M.A., American University of Beirut, Lebanon

Dissertation: Affective Dynamics of Students' Disciplinary Engagement in Science

Advisor: Dr. David Hammer

Erin J. Kappeler**

English

B.A., Princeton University

M.A., Tufts University

Dissertation: Shaping Free Verse: American Prosody and Poetics 1880–1920

Advisor: Dr. Virginia Jackson

Elizabeth Rosemary Kazakoff

Dissertation: Vespidae Microbiology: Characterizations and Implications of Paper Wasp Microorganisms Across Levels of Biological Organization

Advisor: Dr. Philip Starks

Bin Mao**

Physics

B.S., Zhejiang University, China

M.S., Tufts University

Dissertation: Thermal Analysis of Novel Polymeric Materials

Advisor: Dr. Peggy Cebe

Graduate School of Arts and Sciences

Candidates for Graduate Degrees

Kyle M. McElhoney*

Chemistry
B.S., Siena College
Dissertation: Development and Characterization of Instrumentation for Future Extraterrestrial Soil Analyses: Investigation of Terrestrial Soil and Extraterrestrial Soil Analogues by Electrochemical Sensors and Ion Chromatography
Advisor: Dr. Samuel Kounaves

Konstantinos Metallinos*

Physics
B.S., Aristotle University of Thessaloniki, Greece
M.S., Tufts University
Dissertation: Numerical Exploration of the String Theory Landscape
Advisor: Dr. Jose Blanco-Pillado

Marshall G. Miller

Psychology
B.S., Appalachian State University
M.A., Towson University
Dissertation: Dietary Berry Supplementation in Aging
Advisors: Dr. Robin Kanarek and Dr. Barbara Shukitt-Hale

Shuai Nie

Chemistry
B.S., Nanjing University, China
Dissertation: Saliva Diagnostics for Respiratory Diseases Using an Automated Integrated Platform
Advisor: Dr. David Walt

Jacqueline Elizabeth O'Dell

English
B.A., New York University
M.A., Tufts University
Dissertation: Network Anxieties: Fantasies of Literary Autonomy in Contemporary Literary Culture
Advisor: Dr. Virginia Jackson

Christine Elizabeth Offerman

Mathematics

Candidates for Graduate Degrees

Doctor of Philosophy

Arash Ahmadzadegan*

Mechanical Engineering
B.S., Shahrekord University, Iran
M.S., Amirkabir University of Technology, Iran
Dissertation: Development of a Simulation Tool to Analyze the Orientation of LCPs During Extrusion Process
Advisor: Dr. Michael Zimmerman

Amanda Lee Baryshyan*

Biomedical Engineering
B.S.C.H.E., Tufts University
Dissertation: New and Emerging Technologies from Skeletal Muscle Tissue Engineering: Insect Muscle Bioactuators for Robotic Applications
Advisor: Dr. David Kaplan

Alfram V. Bright**

Mechanical Engineering
B.S., Northeastern University
M.S., Tufts University
Dissertation: The Effects of Laser Plasma Discharge on a Separating Boundary Layer
Advisors: Dr. Richard Wlezien and Dr. Chris Rogers

R. Jordan Crouser*

Computer Science
B.A., Smith College
M.S., Tufts University
Dissertation: Toward Theoretical Measures for Systems Involving Human Computation
Advisor: Dr. Remco Chang

Dante Federico DeMeo*

Electrical Engineering
B.S.E.E., Tufts University
M.S., Tufts University
Dissertation: Nanostructures and Metaphotonics for Thermophotovoltaic Generation of Electricity
Advisor: Dr. Thomas Vandervelde

Roberto Elia

Biomedical Engineering
B.A., Tufts University
M.S., Tufts University
Dissertation: Electrodeposited Silk Coatings for Functionalized Implant Applications
Advisor: Dr. David Kaplan

Jenna L. Eppink**

Mechanical Engineering
B.S., Baylor University
M.S., Tufts University
Dissertation: The Interaction of Crossflow Instabilities and a Backward Facing Step in Swept Boundary Layer Transition
Advisor: Dr. Richard Wlezien

Kyle Frank Flynn

Civil and Environmental Engineering
B.A., Western Montana College
M.S., University of Idaho
Dissertation: Methods and Mathematical Approaches for Modeling *Cladophora glomerata* and River Periphyton
Advisor: Dr. Steven Chapra

Brad David Gaynor

Electrical Engineering
B.S.C.P.E., Tufts University
M.S., Tufts University
Dissertation: Simulation of FinFET Electrical Performance Dependence on Fin Shape and TSV and Back-Gate Noise Coupling in 3-D Integrated Circuits
Advisor: Dr. Soha Hassoun

Rebecca Scholl Hayden**

Biomedical Engineering
B.S., Franklin W. Olin College of Engineering
Dissertation: Development of a Tissue-Engineered Model of Bone Remodeling in Healthy and Disease States
Advisor: Dr. David Kaplan

Amy M. Hopkins*

Biomedical Engineering
B.S., Tufts University
Dissertation: Silk Scaffolds for Neural Tissue Engineering
Advisor: Dr. David Kaplan

Faith Wanjiru Kuria

Civil and Environmental Engineering
B.S., University of Nairobi, Kenya
M.S., University of Nairobi, Kenya
Dissertation: Uncertainty Analysis of Estimates of Water Supply Reservoir Yield
Advisor: Dr. Richard Vogel

Jingjing Liu

Computer Science
B.S., Peking University, China
M.S., Georgia Institute of Technology
Dissertation: Clustering with Domain Knowledge
Advisor: Dr. Carla Brodley

Samuel Ivo Ramsay Shaw MacNaughton**

Electrical Engineering
B.S.E.E., Tufts University
M.S., Tufts University
Dissertation: Programmable Integration of Heterogeneous Nanomaterial Arrays onto Arbitrary Substrates with Applications in Gas Sensing
Advisor: Dr. Sameer Sonkusale

School of Engineering

Candidates for Graduate Degrees

Kathy Ye Morgan

Biomedical Engineering
B.S., Massachusetts Institute of Technology
Dissertation: The Effect of Biomimetic Electromechanical Stimulation on the Development and Function of Engineered Myocardial Tissue
Advisor: Dr. Lauren Black

Okuary Osechas**

Electrical Engineering
Dip., University of Karlsruhe, Germany
Dissertation: Aircraft-Based Satellite Navigation Augmentation to Enable Automated Landing and Movement on the Airport Surface
Advisors: Dr. Aleksander Stankovic and Dr. Jason Rife

Christopher R. Paetsch

Civil and Environmental Engineering
B.S., Santa Clara University
M.S., Tufts University
Dissertation: Nonlinear Modeling of Active Biological Material
Advisor: Dr. Luis Dorfmann

Francesco Q. Pancheri**

Mechanical Engineering
B.S., Worcester Polytechnic Institute
M.S., Worcester Polytechnic Institute
Dissertation: Experimental and Analytical Aspects of Biological and Engineered Materials Subjected to Planar Biaxial Loading
Advisor: Dr. Luis Dorfmann

Allison P. Patton**

Civil and Environmental Engineering
B.S., Massachusetts Institute of Technology
Dissertation: Developing Time-Resolved Models for Predicting Atmospheric Concentrations of Ultrafine Particles in Near-Highway Urban Neighborhoods
Advisor: Dr. John Durant

Michele L. Pierro**

Biomedical Engineering
B.E., Polytechnic University of Turin, Italy
M.S., Polytechnic University of Turin, Italy
Dissertation: Quantitative Analysis and Physiological Interpretation of Cerebral Hemodynamic Oscillations Measured with Near-Infrared Spectroscopy
Advisor: Dr. Sergio Fantini

Sandeep Sathyamoorthy*

Civil and Environmental Engineering
B.S., Cornell University
Dissertation: Influence of Sorption and Nitrification Processes on Pharmaceutical Attenuation During Biological Wastewater Treatment
Advisor: Dr. C. Andrew Ramsburg

Anjali Sharma**

Electrical Engineering
B.E., Thapar University, India
M.S., Tufts University
Dissertation: Characterization and Study of Ferromagnetic Resonance of Micro and Nano Ferrites at Microwave and Millimeter Waves
Advisor: Dr. Mohammed Afsar

Lee W. Tien**

Biomedical Engineering
B.S., Princeton University
Dissertation: Silk Biomaterials for Brain-Penetrating Devices
Advisor: Dr. David Kaplan

Mechanical Engineering
B.E., Tianjin University, China
M.E., Tianjin University, China
M.S., Tufts University
Dissertation: Transverse Mechanical Load Effects on Superconducting Nb₃Sn Current-Carrying Performance
Advisor: Dr. Luisa Chiesa

Yuyang Wang*

Computer Science
B.A., Beijing Information Technology Institute, China
M.E., Tsinghua University, China
Dissertation: Nonparametric Bayesian Mixed-Effects Models for Multi-Task Learning
Advisor: Dr. Roni Khardon

Andrew Scott Winslow**

Computer Science
B.S., University of Arizona
M.S., Tufts University
Dissertation: Staged Self-Assembly and Polyomino Context-Free Grammars
Advisor: Dr. Diane Souvaine

Lindsay Stafford Wray**

Biomedical Engineering
B.S., Harvey Mudd College
Dissertation: Silk-Based Platforms for Engineering the Microvascular Niche and Vascularizing Tissue Constructs
Advisor: Dr. David Kaplan

A Modern Hippocratic Oath

By Louis Lasagna, M.D.,

Dean Emeritus, Sackler School of Graduate Biomedical Sciences

I swear to fulfill, to the best of my ability and judgment, this covenant:

I will respect the hard won scientific gains of those physicians in whose steps I walk, and gladly share such knowledge as is mine with those who are to follow.

I will apply, for the benefit of the sick, all measures, which are required, avoiding those twin traps of over treatment and therapeutic nihilism.

I will remember that there is art to medicine as well as science, and that warmth, sympathy, and understanding may outweigh the surgeon's knife or the chemist's drug.

I will not be ashamed to say, "I know not," nor will I fail to call in my colleagues when the skills of another are needed for a patient's recovery.

I will respect the privacy of my patients, for their problems are not disclosed to me that the world may know. Most especially must I tread with care in matters of life and death.

If it is given to me to save a life, all thanks. But it may also be within my power to take a life; this awesome responsibility must be faced with great humbleness and awareness of my own frailty. Above all, I must not play at God.

I will remember that I do not treat a fever chart, or a cancerous growth, but a sick human being, whose illness may affect the person's family and economic stability. My responsibility includes these related problems, if I am to care adequately for the sick.

I will prevent disease whenever I can, for prevention is preferable to cure.

I will remember that I remain a member of society, with special obligations to all my fellow human beings, those sound of mind and body, as well as the infirm.

If I do not violate this oath, may I enjoy life and art, respected while I live and remembered with affection thereafter.

May I always act so as to preserve the finest traditions of my calling and may I long experience the joy of healing those who seek my help.

An Oath for the Dental Graduate

I solemnly pledge to devote my efforts to the care of my patients.

As a member of society, with special obligations, I will treat all patients without prejudice, incorporating the knowledge and skills instilled in me by my teachers.

I will practice dentistry in an ethical and professional manner.

I will hold in confidence all matters related to them.

I will not hesitate to call upon my colleagues when their knowledge and skills are needed.

I will make every effort to maintain, contribute to, and enhance the quality of the dental profession.

I will constantly keep in mind that the practice of dentistry is a true mingling of science, technology, and caring.

Veterinarian's Oath

Being admitted to the profession of veterinary medicine,
I solemnly swear to use my scientific knowledge and skills for
the benefit of society through the protection of animal health
and welfare, the prevention and relief of animal suffering, the
conservation of animal resources, the promotion of public health,
and the advancement of medical knowledge.

I will practice my profession conscientiously, with dignity, and in
keeping with the principles of veterinary medical ethics.

I accept as a lifelong obligation the continual improvement of my
professional knowledge and competence.
